

# SkyPhone

NBN  
READY

## Plug and Play, Set and Forget, Add As You Grow

For a Powerful yet Simple IP Phone System Package which includes maintenance and support, subscription based flexibility minus the hassles of a complicated phone configuration, try SkyPhone!

Due to our enterprise managed platform, the hassles from traditional phone systems are no more! It's never been easier to add or move staff members, change your music on hold or voicemail. Add a receptionist or a professional automated attendant. For those times when you move office, SkyPhone can be taken to your new location without complicated technicians or phone system move costs. If the power goes out, SkyPhone can be programmed to automatically failover to another number or mobile service.

SkyPhone is the perfect solution ranging from a home business to a 10 person small office.
