

Corporate Grade SIP Line Bundles Without the Cost & Complexity

You've got the bandwidth, you've got a system but you want to take advantage of the next advancement in voice technology and the cost security it gives without having to change your system or your internet? Try Sky SIP Lines.

Enterprise Grade, Feature Packed, Simple to Setup and Backed by a 30 Day guarantee, you can be assured that the SkySIP Lines will get your business talking productively!

Includes:

- ✓ Local, National and Fixed to Mobile Calls
- ✓ Configuration, Installation and Optional Phone System Maintenance.
- ✓ 30 Day Guarantee
- ✓ Bring your own numbers
- ✓ National Network Availability

Potential savings with low monthly fees

Competitive call charges or fixed included call plans available

Quick and easy to setup

Carry over your numbers from other providers

Easily scalable to meet your business needs

Compatible with most 3rd party PBXS

Why Sky SIP?

Sky SIP Lines offer superior functionality compared to ISDN with potential savings on call costs and line rental. You can keep your existing phone numbers, phone systems and handsets.

SIP Trunks are a simple and cost effective way to transition into future IP communications with minimal disruption and remain safeguarded from the rise of NBN and Unified Communications.

Simple Business Phones, Enterprise Voice Experience
